

Asia - Europe Sea+Air Service

Expeditors combines multiple modes of transportation seamlessly to offer a cost-saving alternative to airfreight shipments at a faster speed than ocean shipments, through our Sea+Air and Air+Sea services.

As disruptions in the Red Sea continue, and shipments on the Asia-Europe trade experience longer transit times due to the rerouting of ocean carrier services around Africa, Sea+Air is becoming an increasingly valuable option for businesses who want to avoid the ripple effects caused by the Red Sea disruptions.

Our Sea+Air services out of Asia via Dubai and/or via Los Angeles offer reliable, cost-effective alternative to mitigate the Red Sea disruptions, with a single per kilogram rate covering all transportation and transshipment costs from the seaport of origin up to the airport of arrival. Customers receive clear and direct transportation costs with no hidden fees.
