- Automated Tools and Applications
- Exception Reporting to support Supplier Management Programs
- Data and Analytics for use in Compliance Monitoring
- Professional expert support of Other Government Agency (OGA) releases

Expeditors established a presence in Saudi Arabia in 1992. Today we offer customs brokerage services in **13 airports, ports, and land border points** across our offices in Jeddah, Dammam, and Riyadh. We support customers' supply chain requirements through **efficient customs clearance** and **effective regulatory compliance**. These requirements are based on a proactive and detailed understanding of the customer's products and business model. The use of our globally standardized processes and procedures, paired with our local knowledge and expertise, results in timely, accurate, and compliant submissions to Customs and robust, focused query management through the release of goods. We provide declaration data and analytics to support our customers' post-clearance monitoring and compliance programs.
