

Forward Stocking Logistics

Forward Stocking Logistics (FSL) is a flexible solution offering a consultative approach, working alongside you to develop a customizable plan that scales with your business. Whether you're growing your reach or shifting inventory to match demand, we can help you streamline your logistics and unlock new market opportunities with comprehensive visibility through our web-based platform.

TAILORED DELIVERY SCHEDULES

ON-DEMAND INVENTORY

LOCAL CUSTOMER SERVICE

QUICK & EFFICIENT DELIVERIES

- Streamline and control communication from non-logistics personnel to Expeditors operations team
- Digitalized inventory management & booking process - no spreadsheet & email management
- Single source of communication to Expeditors
- Reduced overhead and storage costs
- Timely & accurate inventory data
- Utilize Expeditors' existing global footprint of facilities and Service Providers
- Transportation via dedicated scheduled ground network
- Quickly onboard locations as business scales up (or down)
- Flexible, value-add final mile services
- Various transport options inbound to FSL
- Remove fragmented program management - saving time and expense
- Seamless integration with Expeditors' full suite of services
- Manage all logistics activities with a single provider
