

EXPEDITORS GLOBAL HEALTHCARE STRATEGY

Global Temperature-Controlled Healthcare Facilities

Expeditors has a global network of GDP compliant facilities on all 6 major continents. Each one operates on the same set of GDP requirements.

Instill GDP compliance in our operational “DNA”

- GDP Quality Management System
- Staff trained and certified
- Operational system business rules
- GDP compliance leaders
- Robust auditing

Operate a network of GDP compliant airport and port facilities

- Pre and post airline/SSL service compliant handling of regulated shipments at/near airports
- Key pharma locations globally
- Alternative routings

Partner with proven and committed service providers

- Airlines/SSLs with commitment to TC services
- 3rd party facility operators where applicable
- Delivery truck service operators
- Capacity Management with Airlines
- Volume assessments with packaging solutions
